

Conference Introduction

2020 4th International Conference on Medical and Health Informatics (ICMHI 2020) will be held in **Kamakura City, Japan** during **May 15-17, 2020**.

The ICMHI 2020 aims to bring together outstanding scholars, researchers, and students to exchange and share their experiences and research results about all aspects of Medical and Health Sciences. We also provides the keynote address and several plenary invited speeches for discuss the most recent innovations, trends, and concerns, practical challenges encountered and the various solutions in the fields of medical and health informatics. We cordially welcome all experts of industry, academia and government from all over the world to contribute to and help shape this conference through submissions of their research abstracts, papers and posters.

Keynote speakers

Prof. Dr. Reinhold Haux,
Institute of Technology
and Hannover Medical
School, Germany

President Dr. Hal Wolf, CEO
of Healthcare Information and
Management Systems Society
(HIMSS), United States

Prof. Dr. Tomohiro Matsuda,
President of the International
Association of Cancer Registries
(IACR), the World Health
Organization (WHO)

Dr. Su-Hsin Chang
Department of Surgery,
Washington University
School of Medicine in St.
Louis, United States

Honorary Chairs

Prof. Quan Zou, Tianjin University, China

Prof. Tetsuya Sakurai, University of Tsukuba, Japan

Prof. Ko-Huang Lue, Chung Shan Medical University, Taiwan

Conference Chairs

Prof. Taka-Aki Sato, University of Tsukuba, Japan

Prof. Chi-Chang Chang, Chung-Shan Medical University,
Taiwan

Conference publication

◆ International Conference Proceedings(EI, SCOPUS)

◆ Journal special issue (EI, SCOPUS, SCI etc)

Submission method

◆ Electronic System:

<http://confsys.iconf.org/submission/icmhi2020>

Important dates

◆ Submission before January 05, 2020

◆ Notification of Acceptance on January 25, 2020

Topics of interest, but are not limited to:

- Applications in Electronic Health Records
- Biomedical Data mining
- Biomedical Engineering;
- Business Intelligence
- Cloud Computing and Big Data for Healthcare
- Collaboration Technologies for Healthcare
- Computational Intelligence Methodologies
- Computer Games for Healthcare
- Health Information System
- Disease Profiling and Personalized Treatment;
- E-commerce in Health Informatics
- Epidemiological Modeling
- Medical Robotics
- Public Health Informatics
- RFID Solutions for Healthcare
