

Call for Papers on ICMHI 2019

Special Session: Data Science in Medical Health Informatics

Organizers

Session Chair, Professor Tian-Fu Lee

Department of Medical Informatics, Tzu Chi University, Hualien, Taiwan

Professor Liang-Tsung Huang

Department of Medical Informatics, Tzu Chi University, Hualien, Taiwan

Professor Chao-Chin Wu

Department of Computer Science and Information Engineering, National Changhua
University of Education, Changhua, Taiwan

Introduction and Interests

This session is an opportunity for leading academicians, engineers, scientists, researchers, industrial professionals and students from around the world to network and has scientific discussions on the latest developments in the fields of data science. The main focus of this special session will be on the proposal of *methods and systems to extract insights from medical health data*. This session is also organized to invite them to submit unpublished and original works. Potential topics include, but are not limited to:

- (1) Healthcare Informatics
- (2) Medical Informatics
- (3) Artificial Intelligence in Medicine
- (4) Big Data in Medical Applications and Health Care
- (5) Medical Security and Privacy

Paper Presentation

All accepted journal presentations will be presented orally in Chinese during the conference. At least one author is expected to register to ICHSM 2019 and to present the paper in person.

Submission of Manuscripts and Publishing

The manuscript must be written at least 5 pages in English and should not exceed 30 pages according to the instructions of authors (<http://www.jds->

online.com/Submission). All accepted papers of special session will be published in the conference proceedings, which will be indexed by EI Compendex and Scopus, or *Journal of Data Science* (JDS, <http://www.jds-online.com>), which is indexed in: Current Index to Statistics, EBSCO Discovery, Zentralblatt MATH and Airiti Library.
